## 3 reasons to join the webinar:

- Insightful Expertise:** Gain valuable knowledge from leading experts on the latest trends and challenges in the timely and accurate diagnosis of Alzheimer's disease.
- Comprehensive Coverage:** Understand the evolving patient journey and explore practical solutions for improving Alzheimer's disease diagnostics, focusing on CSF biomarkers.
- Interactive Q&A Sessions:** Participate in interactive Q&A sessions with speakers to get your specific questions answered.

## Agenda

TIME	TOPICS	PRESENTER
05 Min	Opening	<b>Prof. Charlotte E. Teunissen</b>
15 Min	What is the anticipated evolution of the patient journey? – with Q&A	<b>Dr. Marc Suárez-Calvet</b>
15 Min	What are the hurdles and the potential solutions for Alzheimer's disease diagnosis? – with Q&A	<b>Prof. Kaj Blennow</b>
15 Min	Considerations for tau and amyloid CSF biomarker ratios: performance and interpretation – with Q&A	<b>Prof. Charlotte E. Teunissen</b>
10 Min	Final Q&A and closing remarks	<b>All</b>

## Meet the experts

**Dr. Marc Suárez-Calvet**

BarcelonaBeta Brain Research Center (BBRC), Neurology Department, Hospital del Mar, Barcelona, Spain

**Prof. Kaj Blennow**

Professor and Academic Chair in Neurochemistry, University of Gothenburg and Sahlgrenska University Hospital, Sweden

**Prof. Charlotte E. Teunissen**

Professor in Neurochemistry, Chair of the Neurochemistry Lab, Amsterdam UMC, the Netherlands
